PROFESSIONAL SUMMARY

CSE graduate with knowledge of software development, web technologies, databases, and programming. Seeking an entry-level Software Engineer role to apply my skills and build practical software solutions.

SKILLS

- **Languages:** JavaScript, PHP
- **Web:** HTML5, CSS3, Bootstrap 5
- **Database:** MySQL
- **Tools:** Git, GitHub, VS Code, Docker, FileZilla

Projects

RentEsy — Rental Property Management System

PHP, MySQL, HTML5, CSS3, Bootstrap, JavaScript, PHPMailer

- Developed a web-based rental management system to manage properties, tenants, rent payments, and maintenance requests.
- Implemented **role-based access** with separate dashboards for landlords and tenants.
- Built rent tracking, payment history, maintenance requests with photo uploads, and PDF receipts/reports.
- Integrated **PHPMailer** for email communication and **MySQL** for storing application data.
